

The OM500 Beacon, offered by Sentinel, is a sleek in-home device that provides accurate location data in challenging environments where GPS signals are limited or unavailable. Paired with the OM500, the Beacon uses a secure Wi-Fi connection to precisely verify presence or absence of the participant at a specific location.

The OM500 Beacon is particularly effective in situations where participants may be restricted to a certain apartment within a multi-level facility. The Beacon is able to assist in reporting the vertical and horizontal movement of the participant should they leave their assigned residence.

OM500 Beacon Benefits

- Reduces location failure alerts in challenging environments
- Immediately reports tampering when the device is opened, moved, or power is disconnected
- 20+ hour battery backup
- Simple installation completed in under 3 minutes
- Secure Wi-Fi connection minimizes zone size and behaves like curfew monitoring device
- OM500 reinitiates GPS upon leaving the range of the Beacon
